

KLIMA self releasing vineyard clips provide the ultimate zero preparation and zero snag total vineyard clipping solution

KLIMA self releasing vineyard clips

After 6 years of developing the KLIMA pruning system we have collaborated with Wire Care NZ Ltd to develop a universal vineyard clip that works perfectly with the KLIMA system and is suitable for any vineyard situation.

The KLIMA self releasing clips can be used for fruiting and foliage wire positions and are ideal for wire lifting in difficult undulating terrain.

Self releasing KLIMA clips will reduce your staff, cut down your wire lifting and tucking costs, save you time, hassle and money year after year.
